"*Hands-on Environmentalism*" is what we do ...  
*This is what sets the TRAA apart from other clubs and organizations. You'll find us right in the water clearing obstructions from streams, measuring returning salmonids & taking scale samples for DNA analysis, education through trout hatchery tours & stream walks, being a voice for the Thames River watershed & its inhabitants and the list goes on.*

*The first newsletters were banged out manually on a typewriter and then copied about 100 times for distribution. These initial efforts were simple (no pictures or colour!) but they did the job.*

*The latest versions are electronic, emailed to members and other TRAA friends. They feature nice formatting, pictures and yes, colour!*

*The greatest challenge over the years has been getting editions published on time (or at all!). Such is life within a volunteer organization like the TRAA; you have to focus your energies on where they are most effective and a newsletter falls further down that priority list.*

Take a stroll down memory lane by browsing through the TRAA Newsletter archive ...

*and if you have copies of TRAA newsletters that you don't see listed below, please forward a copy to us by email or bring it to any TRAA event.*
